TBT Notifications
Monthly Report
February2019

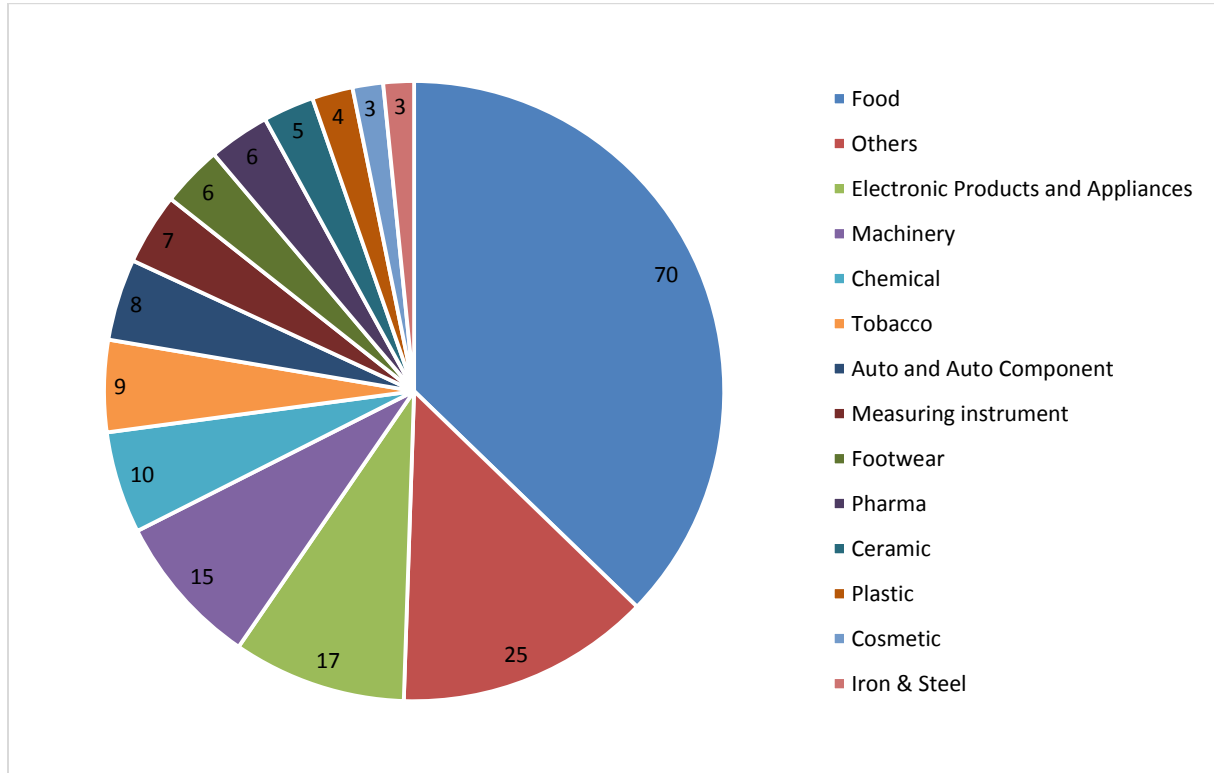

TBT MONTHLY REPORT (FEBRUARY2019): AT A GLANCE

Details Pertaining to TBT Notifications Issued By WTO Member Countries

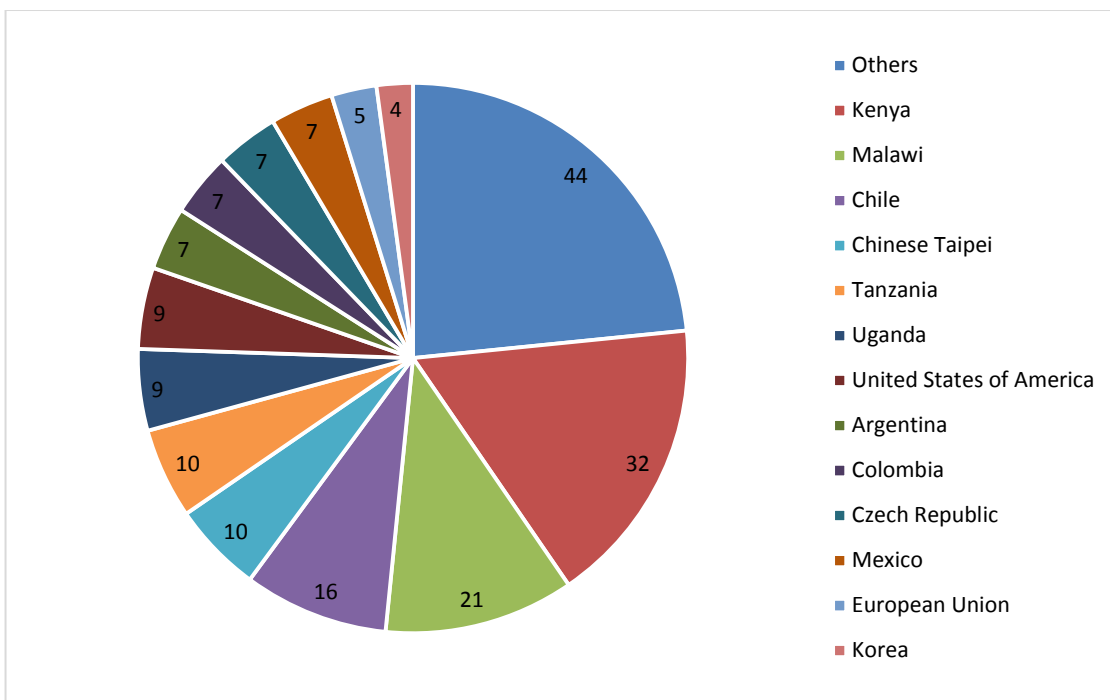

The total numbers of TBT Notifications issued by the various WTO-Member Countries in February2019 were 190. Out of which, India has issued two notifications. Hence, 188 notifications were studied in February 2019. Out of 188 notifications, 62 notifications were the addendum of draft regulations notified earlier in the WTO.

Details Pertaining to TBT Notifications Relevant To India

Product-wise Information:Out of the total 188 Notifications, 70 related to food, 17 were related to electronic products and appliances, 15 related to machinery, 10 related to chemical, 9 related to tobacco, 8 related to auto and auto component, 7 related to measuring instrument,6related to footwear, 6related to pharmaceutical, 5 related to ceramic products,4 related to plastic, 3 related to cosmetic, 3 related to iron &steeland 25 notifications were related to other products.

Country-wise Information: Out of the total 188 notifications, Kenya issued 32 notifications, followed by Malawi, Chile, Chinese Taipei, Tanzania, Uganda, USA, Argentina, Colombia, Czech Republic, Mexico, European Union and Korea with 21, 16, 10, 10, 9, 9, 7, 7, 7, 7, 5 and 4 Notifications, respectively. The remaining 44 Notifications were from other WTO Member countries.

TBT Notifications Relevant to India

This section covers details of notifications which are relevant to India and where a letter has forwarded to all relevant and interested stakeholders seeking their comments on the notification. Stakeholders include individual exporters, organizations, associations and government departments representing the product mentioned in these notifications.

In February 2019, there were 188 notifications issued by WTO member countries which were relevant to India. Letters have already been sent to their respective stakeholders; however, the responses from the stakeholders are awaited. We are regularly following up on these notifications. Please find below the details of these notifications:

78	G/TBT/N/USA/143 2/Add.1	United States of America	2/12/2019	<i>Residential wood heaters, hydronic heaters and forced-air furnaces</i>	<p>In this action, the EPA proposes to amend the 2015 New Source Performance Standards (NSPS) for new residential hydronic heaters and new forced-air furnaces by adding a two-year "sell-through" period for all affected new hydronic heaters and forced-air furnaces that are manufactured or imported before the May 2020 compliance date to be sold at retail through May 2022. This will allow retailers additional time, after the May 2020 effective date of the "Step 2" standards, for the sale of "Step 1" compliant hydronic heaters and forced-air furnaces remaining in inventory. The EPA is also taking comment on whether a sell-through period for all affected new residential wood heaters is appropriate following the May 2020 compliance date and, if so, how long a sell-through period is needed and why. In addition, this action is taking comment on whether the current minimum pellet fuel requirements should be retained and, if so, whether they should be revised.</p>

79	G/TBT/N/USA/1437	United States of America	2/12/2019	Fruits and vegetable grade standards	<p>This rule will remove seven voluntary U.S. grade standards and one consumer standard for fresh fruits and vegetables from the Code of Federal Regulations (CFR). This regulatory action is being taken as part of USDA's work to eliminate regulations that are outdated, unnecessary, ineffective, or impose costs that exceed benefits. None of the eight voluntary standards slated for removal from the CFR are related to a current, active marketing order, import regulation, or export act. The cost of printing these eight standards in the CFR annually exceeds the benefits of further inclusion in the CFR. These voluntary standards and all subsequent revisions or new standards for these products will be available in a separate publication. The standards for the affected commodities will continue to be administered by the Agricultural Marketing Service (AMS) Specialty Crops Inspection (SCI) Division and catalogued using the existing numbering system for voluntary standards</p>
80	G/TBT/N/USA/772/Add.1	United States of America	2/12/2019	Road vehicle systems;	<p>NHTSA withdraws its 13 December 2012 notice of proposed rulemaking (NPRM) that proposed a new Federal motor vehicle safety standard (FMVSS) mandating installation of an Event Data Recorder (EDR) that meets NHTSA's</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>current EDR standard in most light vehicles. At the time NHTSA published the NPRM, the agency noted that a significant number of light vehicles were being sold without EDRs, and said it believed a mandate was needed. Today, EDRs are installed on nearly all new light vehicles. In light of these changed circumstances, NHTSA believes that a mandate for today's EDRs is no longer necessary and withdrawal of the NPRM is therefore warranted.</p>
81	G/TBT/N/USA/863/Add.2/Corr.1	United States of America	2/12/2019	8414 - Air or vacuum pumps, air or other gas compressors and fans; ventilating or recycling hoods incorporating a fan, whether or not fitted with filters.;	<p>The U.S. Department of Energy ("DOE") published a final rule adopting new energy conservation standards for residential furnace fans (hereafter the "July 2014 final rule"). This correction addresses typographical errors that appear in both the preamble of the July 2014 final rule and regulatory text in the Code of Federal Regulations ("CFR"). In certain locations (primarily table headings), the units for fan energy rating ("FER") were inadvertently listed as "Watts/cfm." This document corrects the units designation to "Watts/1000 cfm."</p>

171	G/TBT/N/KEN/827	Kenya	26/02/2019	Woven polyolefin sacks (bags) for packing cement	This draft East African Standard specifies the requirements for woven polyolefin sacks (bags) for packing cement
172	G/TBT/N/TPKM/363	Chinese Taipei	26/02/2019	Agro-pesticides	<p>1. To make agro-pesticides comply with GHS and consistent with international hazard labelling, a business support IT system is to be devised to assist agro-pesticide businesses in label application. The IT system produces label samples and allows specification of products information, including hazard pictograms and hazard statements. The IT system also provides Agro-pesticide business with a better procedure in application of label use or modification.</p> <p>2. To avoid non-compliant labelling, such as correcting information by using stickers or by affixing both new and original labels on the package, the amendment adds new requirements on label modification applications. The original label must be replaced within a time limit after a label modification application is made (Article 3 was amended) .</p> <p>3. The amendment makes changes to the information items required on a label of formulated agro-pesticides. Mode of action classification codes and product barcodes are required. Also to comply with GHS, the warning labels and the notices to user are replaced with the GHS hazard pictograms, precautionary pictograms, signal words, and hazard statement.</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>The amendment further aims to implement the user's manual policy. Each retail unit of agro-pesticide must be accompanied with a user's manual (Article 5 was amended).</p> <p>4. The amendment makes change to the information items required on a label of technical grade agro-pesticides. The warning labels and the notices to user are replaced with the GHS hazard pictograms, precautionary pictograms, signal words, and hazard statement (Article 6 was amended).</p> <p>5. To ensure visibility of agro-pesticide labels, the amendment adds new requirements on the labelling by the businesses. The information given from such labelling texts or images must not overlap with the information which is legally required on an agro-pesticide label (Article 7 was amended).</p> <p>6. To comply with GHS and to categorize agro-pesticides by their properties, the amendment adds new requirements on technical grade agro-pesticides and formulated agro-pesticides. Hazard pictograms, signal words, and hazard statements must comply with the national standard, CNS 15030. The warning label is replaced with hazard pictograms; the notices to user are replaced with precautionary pictograms. Also, the amendment adds an Attachment of Honey Bee</p>
