TBT Notifications

Monthly Report

June 2018

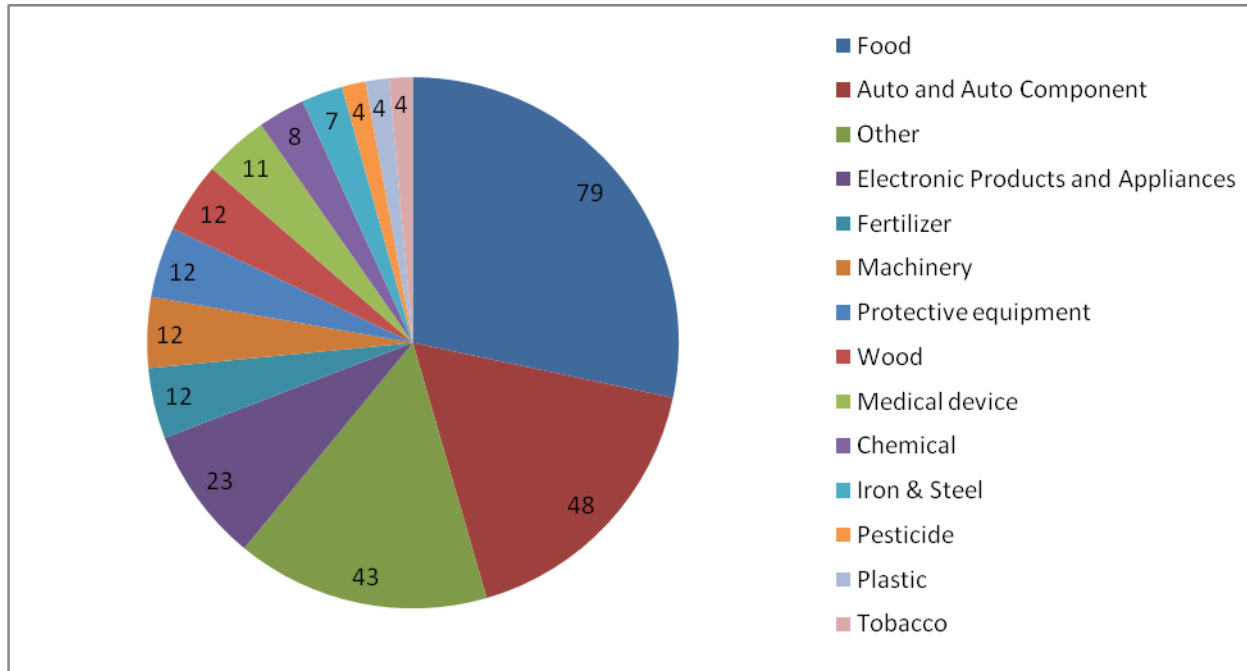

TBT MONTHLY REPORT (JUNE 2018): AT A GLANCE

Details Pertaining to TBT Notifications Issued By WTO Member Countries

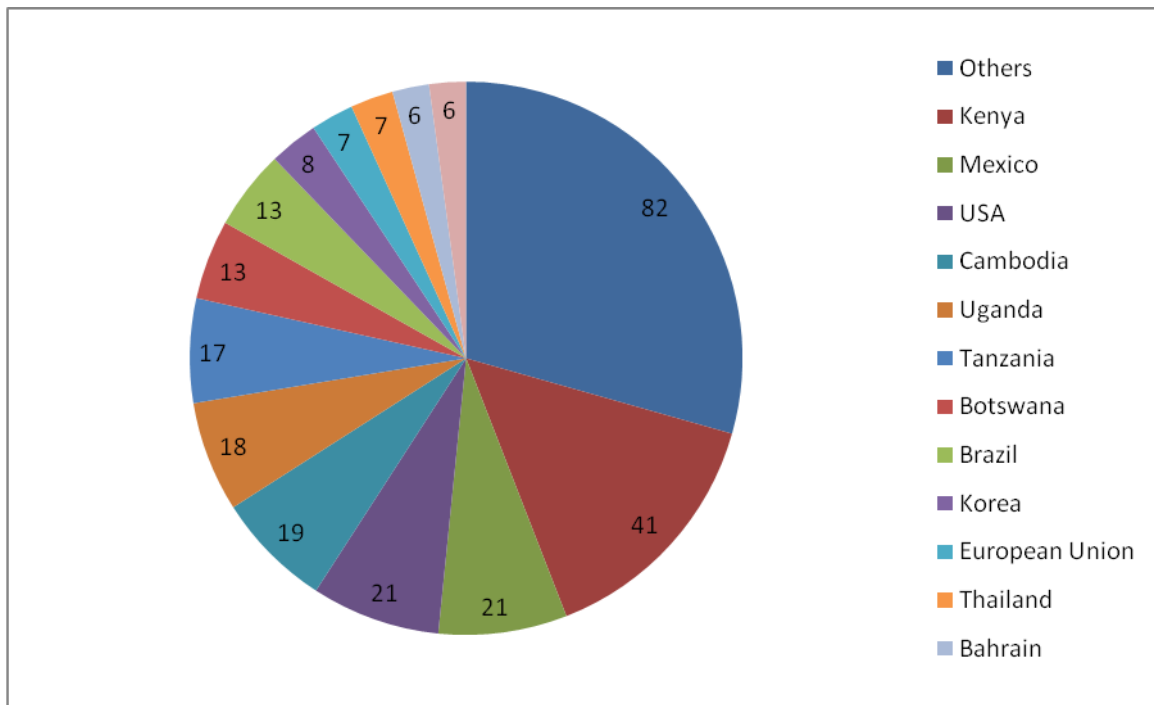

The total numbers of TBT Notifications issued by the various WTO-Member Countries in June 2018 were 280. Out of which, India has issued one notification. Hence, 279 notifications were studied in June 2018. Out of 279 notifications, 45 notifications were the addendum of draft regulations notified earlier in the WTO.

Details Pertaining to TBT Notifications Relevant To India

Product-wise Information: Out of the total 279 Notifications, 79 related to food, 48 were related to auto and auto component, 23 related to electronic products and appliances, 12 related to fertilizer, 12 related to machinery, 12 related to protective equipment, 12 related to wood, 11 related to medical device, 8 related to chemical, 7 related to iron & steel, 4 related to pesticide, 4 related to plastic, 4 related to tobacco and 40 notifications were related to other products.

Country-wise Information: Out of the total 279 notifications, Kenya issued 41 notifications, followed by Mexico, USA, Cambodia, Uganda, Tanzania, Botswana, Brazil, Korea, European Union, Thailand, Bahrain and Chinese Taipei with 21, 21, 19, 18, 17, 13, 13, 8, 7, 7, 6 and 6 Notifications, respectively. The remaining 82 Notifications were from other WTO Member countries.

TBT Notifications Relevant to India

This section covers details of notifications which are relevant to India and where a letter has forwarded to all relevant and interested stakeholders seeking their comments on the notification. Stakeholders include individual exporters, organizations, associations and government departments representing the product mentioned in these notifications.

In June 2018, there were 279 notifications issued by WTO member countries which were relevant to India. Letters have already been sent to their respective stakeholders; however, the responses from the stakeholders are awaited. We are regularly following up on these notifications. Please find below the details of these notifications:

Sl. No.	Notification Number	Members	Date	Products	Notification Details
1	G/TBT/N/PHL/204/Co rr.1	Philippines	01/06/2018	11.040.50 - Radiographic equipment;	This regulation concerns the regulation of devices and non-ionizing such as laser, ultrasound, scanners and infrared radiation devices and others. The regulation states that, the above-mentioned devices shall not be allowed to enter the country unless a Clearance for Customs Release (CFCR) has been issued by CDRHR. This is to ensure control on the said devices entering the country, and that persons importing and receiving the said devices are identified.
2	G/TBT/N/THA/507/A dd.1	Thailand	01/06/2018	<i>Infant and young child food (HS Code: 0401, 0402) (ICS: 67.100.10). Milk and cream, not concentrated nor containing</i>	The Minister of Public Health has adopted the notification on guidance, methods, conditions, details regarding the development of

Sl. No.	Notification Number	Members	Date	Products	Notification Details
				<i>added sugar or other sweetening matter. (HS: 0401), Milk and cream, concentrated or containing added sugar or other sweetening matter. (HS: 0402)</i>	information and dissemination channels of information on infant food, scientific evidence to support the information on infant food, young child food, and complementary food, conditions of customary giving to health professionals, in organizing academic conference, training or seminars in association with infant food, young child food or complementary food, guideline, methods, and conditions of donation of infant food or young child food to health care institutions or health personnel.
3	G/TBT/N/THA/508/Add.1	Thailand	01/06/2018	<i>Infant and young child food (HS Code: 0401, 0402) (ICS: 67.100.10). Milk and cream, not concentrated nor containing added sugar or other sweetening matter. (HS: 0401), Milk and cream, concentrated or containing added sugar or other sweetening matter. (HS: 0402)</i>	The regulation states that, in developing information on infant food, the producers, importers, sellers, or their representatives, must include the information on number of unit (can/box) of infant food needed per month, in case that infant is exclusively formula-fed. The calculation should be based on the average amount of infant formula needed for infant 0-3 months (2.7 kg of infant formula) and for infant 4-6 months (4.5 kg of infant formula).
4	G/TBT/N/THA/509/Add.1	Thailand	01/06/2018	<i>Infant and young child food (HS Code: 0401, 0402) (ICS: 67.100.10). Milk and cream, not concentrated nor containing added sugar or other sweetening matter. (HS: 0401), Milk and cream, concentrated or containing added sugar or other sweetening matter. (HS: 0402)</i>	
5	G/TBT/N/CAN/556	Canada	04/06/2018	Motor vehicle (ICS: 43.020, 43.080)	The proposed amendment would reduce trade barriers by amending the requirements related to temporary importation, vehicles imported from Mexico, and vehicles imported from the United States and Mexico for parts.

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>The proposed amendment would also clarify the requirements for vehicles and equipment imported temporarily for a prescribed purpose, and harmonize parts of the Regulations with the amended Act, such as sections 11 and 12 of the Vehicle Regulations and the provisions related to the national safety mark for tires. The amended Vehicle Regulations would require that these vehicles satisfy specific Canadian safety requirements, and overall Transport Canada does not anticipate that the proposal would have a significant impact on the market for motor vehicles in Canada.</p> <p>In addition, the proposed amendment would align Canada with the United States by adding a minimum speed for vehicles to exclude slow-moving vehicles, such as power-assisted bicycles, scooters and electric or low-speed all-terrain vehicles.</p>
6	G/TBT/N/EU/552/Ad d.1	European Union	04/06/2018	<i>Thiram (pesticide active substance)</i>	<p>EU is revising draft regulation concerning the non-renewal of the active substance thiram.</p> <p>The concerned amendments are as follow:</p> <ul style="list-style-type: none"> • It prohibits the use and sale of seeds treated with plant protection products containing thiram • Withdrawal from the renewal of thiram for foliar spraying

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<ul style="list-style-type: none"> EU member states shall withdraw authorizations for plant protection products containing thiram as active substance at the latest (three months from the date of entry into force) Any grace period granted shall be as short as possible and shall expire by 6 months from the date of entry into force for plant protection products used for foliar application and on 15 months from the date of entry into force for other plant protection products, including those used for seed treatment.
7	G/TBT/N/THA/511/A dd.1	Thailand	04/06/2018	<i>Infant and young child food (HS Code: 0401, 0402) (ICS: 67.100.10). Milk and cream, not concentrated nor containing added sugar or other sweetening matter. (HS: 0401), Milk and cream, concentrated or containing added sugar or other sweetening matter. (HS: 0402)</i>	<p>Thailand is adopting the Ministerial notification on guideline, methods, and conditions of donation of infant food or young child food to health care institutions or health personnel , and rules, methods and conditions in sponsoring the public health professional organizations and public universities that offer curriculums on maternal and child health, in organizing academic conferences, trainings or seminars in association with infant food, young child food or complementary food.</p> <ul style="list-style-type: none"> Estimate monthly cost of infant food needed per month, based on the number of unit needed x the retail price <p>The information provided on infant food, young child, and complimentary food to health professionals should be from published article</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>in related academic journals that are widely accepted, trusted database of scientific peer review journals, report of expert committee.</p> <p>The producers, importers, sellers, or their representatives (the sponsor) could provide financial support for the meeting following this notification in the case that the public health professional organizations or public universities that offer curriculums on maternal and child health submit the work plan or project proposal in official written form to the sponsor. The plan or project must provide academic benefit.</p>
8	G/TBT/N/UGA/841	Uganda	04/06/2018	0405 - Butter and other fats and oils derived from milk; dairy spreads.;	This Draft Uganda Standard specifies requirements, sampling and test methods for butter intended for human consumption or for further processing.
9	G/TBT/N/VNM/127	Viet Nam	04/06/2018	11.120 - Pharmaceuticals;	<p>the draft circular promulgates the list of medicinal herbs to be registered for circulation in Viet Nam. Those include toxic medicinal herbs used as medicine, easily-confused and easy-to-fake ones.</p> <p>Medical herbs which meet one of the following criteria shall be considered to be included in the list:</p> <ul style="list-style-type: none"> • Medical herbs used as medicine listed as toxic medicinal herbs used as medicine. • Medical herbs whose use can lead to serious harmful reactions known or warned by WHO or domestic or foreign competent

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>authorities.</p> <ul style="list-style-type: none"> • Medical herbs which are like or similar to others, causing confusion in their supply and use. • Medical herbs in which there are substances that change their content easily by processing, extraction or high economic value substances.
10	G/TBT/N/VNM/128	Viet Nam	04/06/2018	11.120 - Pharmaceuticals;	<p>the draft Circular specifies the principles in developing and criteria for selection of essential drugs applied for pharmaco-chemical, vaccines, biology products, traditional medicine, essential medical herbs; list of pharmaco-chemical, vaccines, biology products, traditional medicine, essential medical herbs, purpose of promulgation and responsibility.</p> <p>The circular establishes the principles for formulation and criteria for selection of drugs into the list of essential drugs. As per these principles, the list of essential drugs shall be based on criteria for selection of drugs prescribed in treatment guidelines and treatment procedures. It has also to refer to the list of essential medicines of the World Health Organization.</p>
11	G/TBT/N/UGA/842	Uganda	05/06/2018	0401 - Milk and cream, not concentrated nor containing added	<p>This Draft Uganda Standard specifies requirements, sampling and test methods for UHT milk.</p>

					and consult with Environmental, Health and Safety (EHS) professionals.
29	G/TBT/N/KEN/678	Kenya	07/06/2018	Electrocardiograph papers	<p>This Kenya Standard prescribes the requirements and test methods for Electrocardiograph paper intended for use in electrocardiography.</p> <p>The standard requires that, the marking in the products shall contain the following information details:</p> <ul style="list-style-type: none"> • The name and address of the manufacturer or local distributor and registered trade mark, if any • The name of the product as "ECG Paper" • The size designation of the paper depending on the machine • The number of rolls or "reams" in each box • The grammage of the paper • The colour of the paper
30	G/TBT/N/KEN/679	Kenya	07/06/2018	Dial thermometers	<p>This Kenya Standard specifies requirements and testing for indicating thermometers using sensing methods of gas expansion (symbol GE), liquid expansion (symbol LE) and bimetallic strip (symbol BM). Nominal sizes are from 40 to 160, and temperature measurement from -100°C to +700°C. Thermometers specified have circular scales, and are for industrial use only. Thermometers of square form are also covered</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					by this Kenya Standard except for case and pointer dimensions. This standard does not apply to thermometers for medical use nor to thermometers with electrical limit contact devices.
31	G/TBT/N/KEN/680	Kenya	07/06/2018	Hair extensions	<p>This Kenya Standard specifies the requirements and methods of test for hair extensions for use on humans. The hair extensions are classified into three broad categories in this standard- wigs, weaves, and braids and hairpieces. The standard requires that, in labeling of hair extensions, the following information has to be provided:</p> <ul style="list-style-type: none"> • registered trade mark, if any • type of hair extension • the words "Heat Sensitive, or "For hot water use", and so on • batch number or code • country of origin or manufacture • colour • pictorial of the contents • the words, " Synthetic hair extensions"
32	G/TBT/N/KEN/681	Kenya	07/06/2018	97.140 - Furniture;	the standard sets out the requirements for the evaluation, design, and selection of office workstations. It specifies minimum requirements for function, strength, durability and stability of workstations, leaving designers and manufacturers the maximum opportunity to develop suitable products.

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					This Standard does not apply to mobile workstations or special cases such as schools, where the height of counters or benches, for example, might vary from those specified in this Standard.
33	G/TBT/N/KEN/682	Kenya	07/06/2018	97.140 - Furniture;	the standard prescribes the requirements and methods of test for wooden tables for office use. The regulation requires that, the table tops shall be tested in accordance with latest ISO 4211- parts 1,2,3, and 4.
34	G/TBT/N/KEN/683	Kenya	07/06/2018	97.140 - Furniture;	It prescribes the test methods for cyclic top load test for free standing office furniture. This test method sets out a method of evaluating the durability of a desk to withstand cyclic loading of the top. This test applies to primary surfaces only. This Kenya Standard covers freestanding desks such as single and double pedestal desks and extended units both adjustable and fixed height. It also includes tables intended for use as desks.
35	G/TBT/N/KEN/684	Kenya	07/06/2018	97.140 - Furniture;	the standard sets out a method of demonstrating that the locking mechanism will provide security for the contents of the drawer. This Kenya Standard covers freestanding desks such as single and double pedestal desks and extended units both adjustable and fixed height.
36	G/TBT/N/KEN/685	Kenya	07/06/2018	97.140 - Furniture;	the regulation sets out a method of evaluating the ability of the outstops of desk drawers to

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					withstand an abnormal pull-out force. A specified load and force are applied to the drawers to test the outstops and connections.
37	G/TBT/N/KEN/686	Kenya	07/06/2018	97.140 - Furniture;	the regulation sets out a method of evaluating the operational characteristics of a desk drawer to ensure that it will not bounce back out when closed with force.
38	G/TBT/N/KEN/687	Kenya	07/06/2018	97.140 - Furniture;	It concerns setting out a method of evaluating the ability of a desk to withstand reasonable handling.
39	G/TBT/N/KEN/688	Kenya	07/06/2018	97.140 - Furniture;	the regulation sets out a method of determining the ability of the desk to withstand impact on the legs or on closed base or plinth.
40	G/TBT/N/KEN/689	Kenya	07/06/2018	97.140 - Furniture;	the standard sets out a method of evaluating the ability of supporting legs (or slab ends) of a desk to withstand static loads to which they may be subjected when in use such as pushing or pulling during handling or during shipping.
41	G/TBT/N/KEN/690	Kenya	07/06/2018	97.140 - Furniture;	the regulation sets out a method of evaluating the ability of adjustable surfaces to be cycled through their range of adjustment under use loads.
42	G/TBT/N/KEN/692	Kenya	07/06/2018	13.340 - Protective equipment (Helmets)	This draft regulation is a part of the National Workshop Agreement. It specifies the requirements and test methods for the helmets and gloves for use by the medical waste handlers.

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>The regulation states that, the color of the helmet shall be yellow in color. The mass of complete helmet, including harness and without accessories shall not exceed 400 g when measured to nearest 30 g. Should it exceed this limit, then it shall be shown on a label attached to the helmet. Helmets shall be indelibly and legibly marked with the following information in either Kiswahili or English:</p> <ul style="list-style-type: none"> i) Number of this Workshop Agreement ii) Country of origin iii) Name of manufacturer iv) Type of helmet (manufacturer's designation). <p>This shall be marked on both the shell and the harness.</p> <p>For gloves, the regulation specifies that, the Gloves shall be made of rubber, or leather or any material suitable for isolating the user from direct contact with healthcare waste and heat. The glove shall be constructed from a single or multiple material layer. Leather gloves shall be insulated with aramid, terrycord or cotton blends.</p>
43	G/TBT/N/KEN/700	Kenya	07/06/2018	13.340 - Protective equipment (gLOVES)	<p>This part of this National Workshop Agreement prescribes the requirements and test methods for gloves for use by the health care waste handlers.</p>

					accepted, trusted database of scientific peer review journals, report of expert committee. The producers, importers, sellers, or their representatives (the sponsor) could provide financial support for the meeting following this notification in the case that the public health professional organizations or public universities that offer curriculums on maternal and child health submit the work plan or project proposal in official written form to the sponsor. The plan or project must provide academic benefit.
50	G/TBT/N/USA/827/Re v.2/Add.5	United States of America	07/06/2018	<i>Formaldehyde emissions, composite wood products</i>	EPA is announcing public meeting regarding technical issues on formaldehyde emission standards for composite wood products. This regulation updates the incorporation by reference of multiple voluntary consensus standards that have been updated, superseded, or withdrawn, and provides a technical correction to allow panel producers to correlate their approved quality control test method to the ASTM E1333-14 test chamber, or, upon showing equivalence, the ASTM D6007-14 test chamber. The meeting will inform EPA's potential development of a proposed rule to address technical issues. The primary audience for this public meeting is Third Party Certifiers (TPCs) and panel producers who contract with TPCs to certify composite wood products; however, this meeting is open to the public.

					<p>aquaculture, sustainable fisheries, bee-keeping, the harvesting of wild products, and the processing and labelling of the products therefrom. It does not cover procedures for verification such as inspection or certification of products.</p> <p>The standard, among other things, stipulates that operators of organic producers shall meet the following practices:</p> <ul style="list-style-type: none"> • The operator shall maintain a system for traceability of organic products. • All use of chemically treated seeds, seedlings and planting materials shall be documented. • Paints containing toxic substances such as tin or lead shall not be used for painting the bottom of fishing boats. <p>All primary stakeholders involved in a sustainable fishery shall be trained and made well aware of standards and other requirements for sustainable fisheries. Trainings shall be documented</p>
100	G/TBT/N/BRA/821	Brazil	13/06/2018	Mandatory nutrition labelling	<p>Brazil adopted mandatory nutrition labelling as part of the public health strategy to promote adequate and healthy food habits and to combat overweight.</p> <p>This process by Anvisa helped to ensure</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>consumers' right to information about the basic compositional characteristics of foods and contributed to Mercosur being the first economic bloc to have harmonized compulsory nutrition labelling, which has facilitated trade between countries.</p> <p>After the implementation of this regulatory measure, some inconsistencies and practical limitations of the regulation were identified and addressed through amendments in the legislation. However, the need for a more comprehensive review was identified.</p> <p>Thus, Anvisa provided the technical subsidies to support the request for revision of this issue in Mercosur and established a Physical Working Group on Nutrition Labelling, with the participation of several stakeholders.</p> <p>The results of these studies contributed to the inclusion of this topic in the Regulatory Agenda and for the revision of nutrition labeling regulations. The subsidies obtained in this process identified that the main regulatory problem is the difficulty of Brazilian consumers in using the nutrition labelling. Several reviews of international scientific literature and researches in Brazil revealed that a significant</p>

					portion of consumers have difficulty understanding and using nutrition labelling.
101	G/TBT/N/EU/578	European Union	13/06/2018	Propiconazole (pesticide active substance)	This draft regulation provides that the approval of the active substance propiconazole is not renewed in accordance with Regulation (EC) No 1107/2009. Existing authorised plant protection products containing propiconazole will be withdrawn from the market. The non-approval is based on the first evaluation of the substance for use as a pesticide active substance in the EU under Regulation (EC) No 1107/2009. The agency informs that this decision only concerns the placing on the market of this substance and does not affect the Maximum Residue Levels (MRLs) for residues of the concerned pesticide.
102	G/TBT/N/KOR/776	Korea, Republic of	13/06/2018	Electricity meter	<p>The revision of the regulation concerns the following:</p> <ul style="list-style-type: none"> In accordance with Measures Act, the "technical regulation of electricity meter" stipulates specifications, testing methods, requirements for type approval of electricity meters including electromechanical meters and AC-static electricity meters. This revision additionally provides the technical regulations of DC-static electricity meter and IoT combined AC-static electricity meter.

116	G/TBT/N/USA/1222/Add.1	United States of America	14/06/2018	<i>Nonylphenol ethoxylates (NPEs)</i>	This rule concerns addition of a Nonylphenol Ethoxylates (NPEs) category to the list of toxic chemicals subject to reporting. NPEs are nonionic surfactants containing a branched nine-carbon alkyl chain bound to phenol and a chain of repeating ethoxylate units. The surfactant properties of NPEs have resulted in their widespread industrial and commercial use in adhesives, wetting agents, emulsifiers, stabilizers, dispersants, defoamers, cleaners, paints, and coatings.
117	G/TBT/N/USA/1370	United States of America	14/06/2018	2524 - Asbestos.;	Under the Toxic Substances Control Act (TSCA), EPA is proposing a significant new use rule (SNUR) for asbestos as defined under the Asbestos Hazard Emergency Response Act. The proposed significant new use of asbestos is manufacturing (including importing) or processing for certain uses identified by EPA as no longer ongoing. Persons subject to the SNUR would be required to notify EPA at least 90 days before commencing any manufacturing (including importing) or processing of asbestos (including as part of an article) for a significant new use. The required notification initiates EPA's evaluation of the conditions of use associated with the intended use within the applicable review period. Manufacturing

					(including importing) and processing (including as part of an article) for the significant new use may not commence until EPA has conducted a review of the notice, made an appropriate determination on the notice, and taken such actions as are required in association with that determination.
118	G/TBT/N/CAN/394/R ev.2/Add.1	Canada	15/06/2018	<i>Food intended for human consumption</i>	<p>The Canadian Food Inspection Agency has issued this final Safe Food for Canadians Regulations. The new regulatory framework incorporates existing commodity-based regulations into a single, more outcome-based regulation.</p> <p>In our understanding, Canada is proposing changes to its food safety mechanism due to changes in the supply value chain, worldwide adoption of prevention based regulatory framework to address food safety issues, changing consumer preferences, developments in technology that are used in the food production process. In addition, the incidents of food borne illness in their territory have accelerated the need to modernise the food safety mechanism. Besides, it sees the changes as the necessary step in order to facilitate their food business industry. The Canadian Food Inspection Agency (CFIA) is the nodal agency responsible for the safety of the food products.</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					It intends to bring together 13 product based regulations and food related aspects of the Consumer Packaging and Labelling Regulations (CPLR) into a unified regulation titled as 'Safe Food for Canadian Act (SFCA)'. It intends to provide sufficient transition time for the industry to comply. Currently, the following are the regulations that govern the food safety – Canada Agricultural Products Act (CAPA), the Consumer Packaging and Labelling Act (CPLA), the Food and Drugs Act (FDA), the Fish Inspection Act (FIA) and the Meat Inspection Act (MIA). It covers the food commodities like dairy, fish and seafood, fresh fruits and vegetables, honey, maple products, meat, processed eggs, processed fruit and vegetable products and shell eggs. Besides, the food products are covered by the Licensing and Arbitration Regulations (LAR), the Livestock and Poultry Carcass Grading Regulations, the Icewine Regulations, and the Organic Products Regulations, 2009. However, the agency indicates that SFCA received a royal assent on November 2012 and it will consolidate the above mentioned regulations. Thus, the food safety would fall under the SFCA and the FDA.

153	G/TBT/N/ESP/39	Spain	19/06/2018	67.060 - Cereals, pulses and derived products;	<p>This regulation establishes the definition of bread and its two main types, common bread and special breads, as well as the sales denominations that correspond to each of them. New aspects are defined such as sourdough, inactive sourdough and artisan bread making, which are important elements in the current elaboration of bread.</p> <p>It establishes what are the raw materials and other ingredients that can be used in the preparation of the bread, as well as the permitted coadjuvants. Regarding the food information that is offered to the consumer, in the obligatory aspects the norm refers to European Union Law, and as for the volunteers, the use of the terms "integral" and "mass" are regulated, among others.</p> <p>Finally, the marketing of certain types of bread is ordered at the point of sale, as per which, the common bread can only be sold within 24 hours of cooking. Exceptionally, the sale is authorized after that time, provided that the stock of this type of bread are properly separated at the point of sale and indicated clearly that its cooking was done more than 24 hours ago.</p>
