TBT Notifications
Monthly Report
May 2019

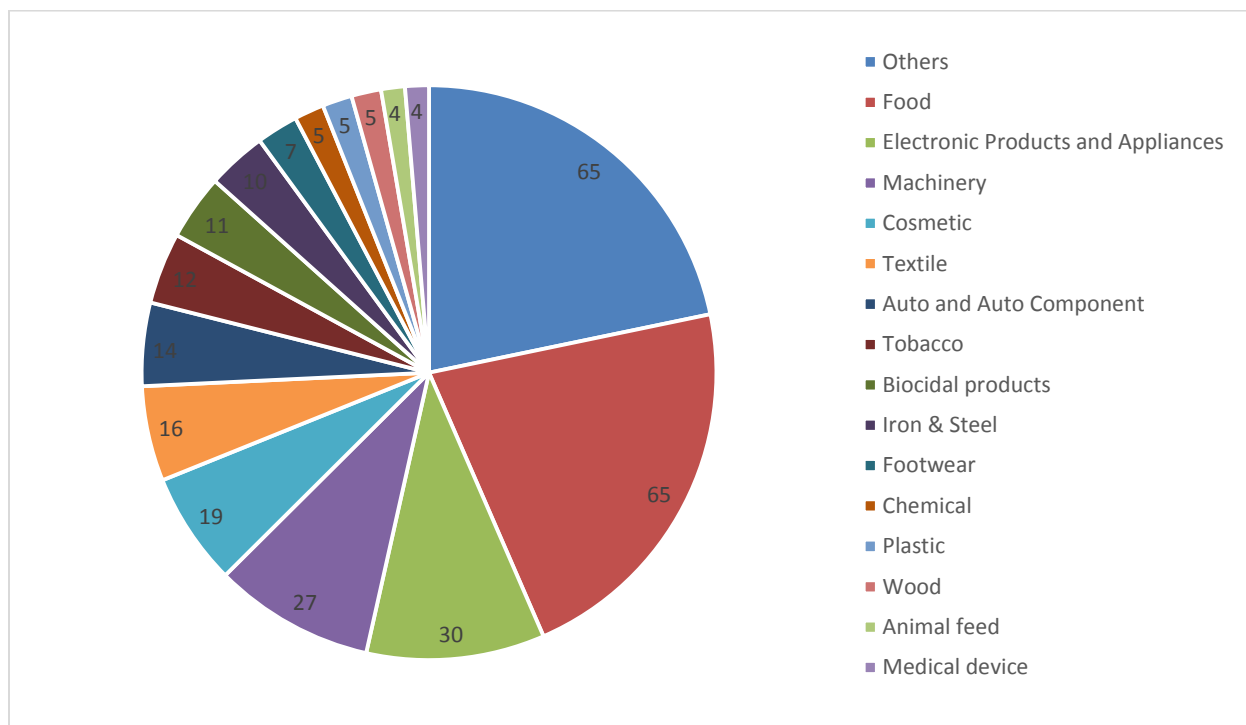

TBT MONTHLY REPORT (MAY2019): AT A GLANCE

Details Pertaining to TBT Notifications Issued By WTO Member Countries

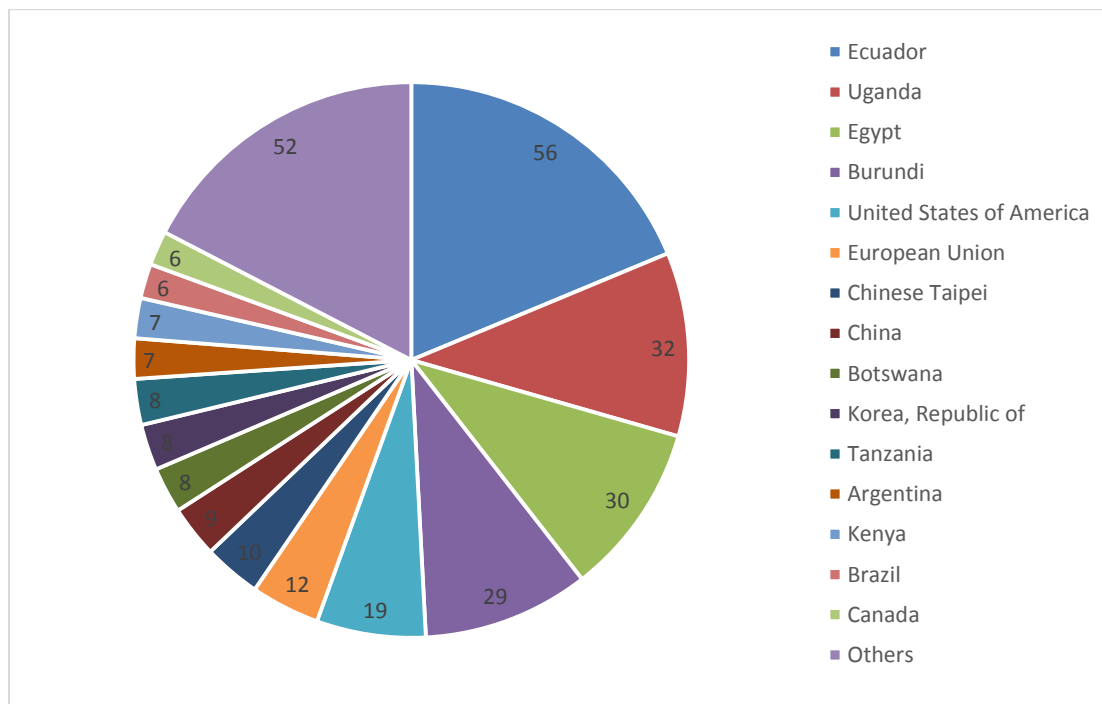

The total numbers of TBT Notifications issued by the various WTO-Member Countries in May 2019 were 302. Out of which, India has issued three notifications. Hence, 299 notifications were studied in May 2019. Out of 299 notifications, 77 notifications were the addendum of draft regulations notified earlier in the WTO.

Details Pertaining to TBT Notifications Relevant To India

Product-wise Information: Out of the total 299 Notifications, 65 related to food, 30 were related to electronic products and appliances, 27 related to machinery, 19 related to cosmetic, 16 related to textile, 14 related to auto and auto component, 12 related to tobacco, 11 related to biocidal products, 10 related to iron & steel, 7 related to footwear, 5 related to chemical, 5 related to plastic, 5 related to wood, 4 related to animal feed, 4 related to medical device and 65 notifications were related to other products.

Country-wise Information: Out of the total 299 notifications, Ecuador issued 56 notifications, followed by Uganda, Egypt, Burundi, USA, EU, Chinese Taipei, China, Botswana, Korea, Tanzania, Argentina, Kenya, Brazil, Canada, and Chile with 32, 30, 29, 19, 12, 10, 9, 8, 8, 8, 7, 7, 6 and 6 Notifications, respectively. The remaining 52 Notifications were from other WTO Member countries.

TBT Notifications Relevant to India

This section covers details of notifications which are relevant to India and where a letter has forwarded to all relevant and interested stakeholders seeking their comments on the notification. Stakeholders include individual exporters, organizations, associations and government departments representing the product mentioned in these notifications.

In May 2019, there were 299 notifications issued by WTO member countries which were relevant to India. Letters have already been sent to their respective stakeholders; however, the responses from the stakeholders are awaited. We are regularly following up on these notifications. Please find below the details of these notifications:

Sl. No.	Notification Number	Members	Date	Products	Notification Details
1	G/TBT/N/CHE/235	Switzerland	01/05/2019	4401 - Fuel wood, in logs, in billets, in twigs, in faggots or in similar forms; wood in chips or particles; sawdust and wood waste and scrap, whether or not agglomerated in logs, briquettes, pellets or similar forms.; 4403 - Wood in the rough, whether or not stripped of bark or sapwood, or roughly squared.; 4406 - Railway or tramway sleepers	Switzerland is amending the Chemical Risk Reduction Ordinance The agency aims to introduce new restrictions on the marketing on certain hazardous substances in several annexes of the Chemical Risk Reduction Ordinance (ORRChem). The proposed provisions on decabromodiphenyl ether (DecaBDE), perfluorooctanoic acid (PFOA),

114	G/TBT/N/SGP/47/Add .1	Singapore	13/05/2019	<i>Mixing Taps and Valves. National tariff headings (HS): 8481.80.50</i>	<p>Singapore is adopting the Public Utilities (Water Supply) (Amendment) Regulations 2019.</p> <p>Singapore's Mandatory Water Efficiency Labelling Scheme (Mandatory WELS) was introduced in 2009 to help consumers make more informed purchasing decisions and encourage suppliers to introduce more water efficient products into the market.</p> <p>Under the scheme, all water fittings, including thermostatic mixers, must be registered and labelled to provide information on their water efficiency level before they can be sold or supplied in Singapore.</p> <p>Suppliers registering new models of thermostatic mixers under the mandatory WELS are currently required to submit test results in accordance with section 10 of BS EN 1287 (1999).</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>From 1 April 2020 onwards, the prevailing test standard for thermostatic mixers under the mandatory Water Efficiency Labelling Scheme (WELS) will be replaced with Section 13.2 of the BS EN 1111 (2017).</p> <p>To allow suppliers and test laboratories to prepare for the new test standard, there will be a transition period from 1 April 2019 to 31 March 2020, during which suppliers can submit test reports based on either section 10 of BS EN 1287 (1999) or section 13.2 of BS EN 1111 (2017) to register their new thermostatic mixer models.</p> <p>All existing thermostatic mixer models which are registered under WELS before 1 April 2020 can still continue to be supplied without having to re-submit test results.</p>
