TBT Notifications
Monthly Report
September 2018

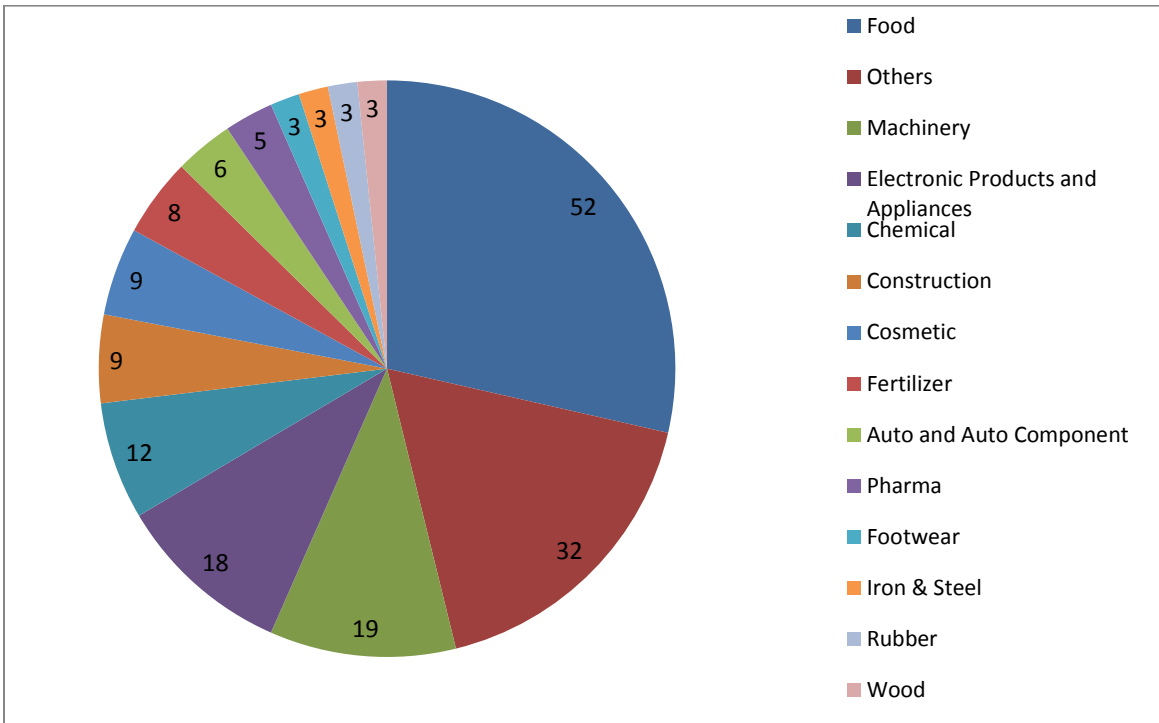

TBT MONTHLY REPORT (SEPTEMBER2018): AT A GLANCE

Details Pertaining to TBT Notifications Issued By WTO Member Countries

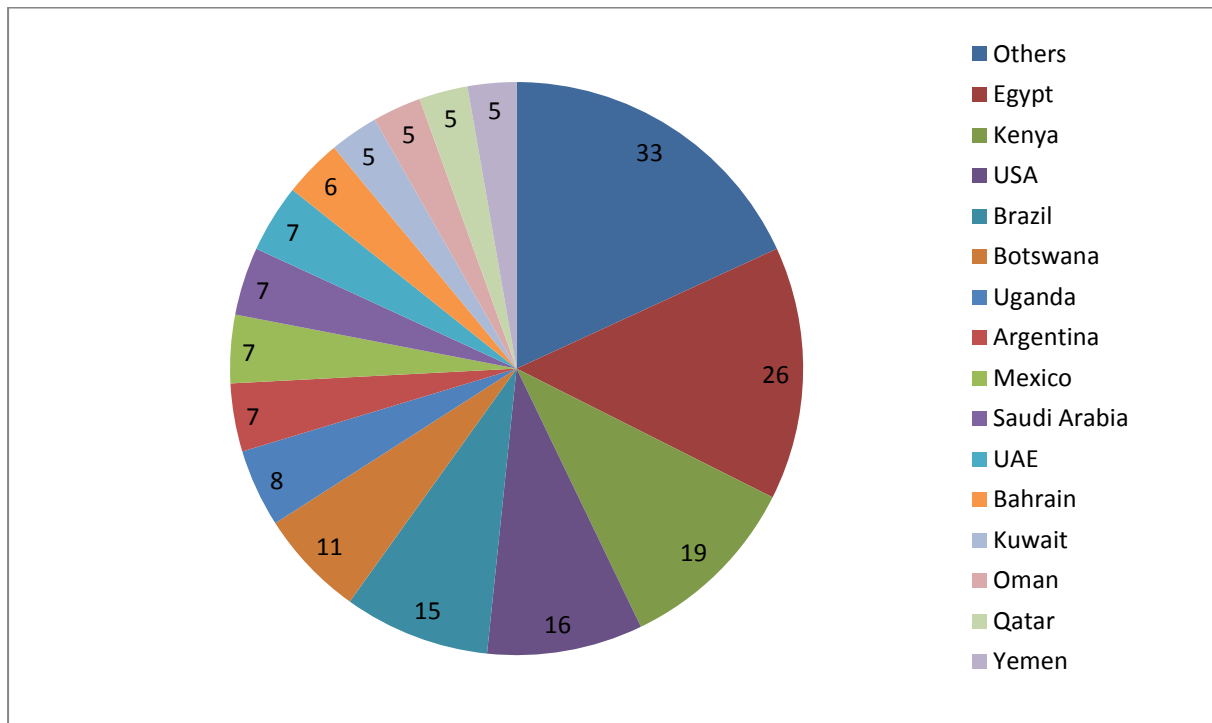

The total numbers of TBT Notifications issued by the various WTO-Member Countries in September2018 were 183.Out of which, India has issued onenotification. Hence, 182 notifications were studied in September 2018. Out of 182 notifications, 60 notifications were the addendum of draft regulations notified earlier in the WTO.

Details Pertaining to TBT Notifications Relevant To India

Product-wise Information:Out of the total 182 Notifications, 52related to food, 19 were related to machinery,18 related to electronic products and appliances,12 related to chemical, 9 related to construction, 9related to cosmetic, 8 related to fertilizer,6related to auto and auto component,5 related to pharmaceutical, 3 related to footwear, 3 related to iron &steel, 3related to rubber, 3 related to woodand 32 notifications were related to other products.

Country-wise Information: Out of the total 182 notifications, Egypt issued 26 notifications, followed by Kenya, USA, Brazil, Botswana, Uganda, Argentina, Mexico, Saudi Arabia, UAE, Bahrain, Kuwait, Oman, Qatar and Yemen with 19, 16, 15, 11, 8, 7, 7, 7, 7, 6, 5, 5, 5 and 5 Notifications, respectively. The remaining 33 Notifications were from other WTO Member countries.

TBT Notifications Relevant to India

This section covers details of notifications which are relevant to India and where a letter has forwarded to all relevant and interested stakeholders seeking their comments on the notification. Stakeholders include individual exporters, organizations, associations and government departments representing the product mentioned in these notifications.

In September 2018, there were 182 notifications issued by WTO member countries which were relevant to India. Letters have already been sent to their respective stakeholders; however, the responses from the stakeholders are awaited. We are regularly following up on these notifications. Please find below the details of these notifications:

Sl. No.	Notification Number	Members	Date	Products	Notification Details
1	G/TBT/N/BRA/456/A dd.3	Brazil	03/09/2018	<i>Systems and equipment for water heating using solar energy (HS 8419)</i>	The Ministry of Industry, Commerce & Tourism with Supreme Council for Environment are in process to establish a National Technical Regulation (TR) to phase out import, sale or distribution of non-degradable plastic products. The proposed TR sets all the requirements in terms of specifications, licenses, labeling scheme, economic operators obligations, and other requirements for the products subject to TR.
2	G/TBT/N/BRA/562/A dd.2	Brazil	03/09/2018	940540 - - Other electric lamps and lighting fittings	As per this technical regulation, all luminaires for public street lighting, covered in this regulation, must be manufactured, imported, distributed and marketed in a way that does not risks that jeopardize the security of the consumer.

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>These requirements apply to the following types of lighting luminaires public road:</p> <ul style="list-style-type: none"> • Lamps with discharge lamps up to 600 W • Fixtures with LED technology
3	G/TBT/N/CHL/458	Chile	03/09/2018	Labeling of milk and dairy products	<p>The purpose of this bill is to introduce new health code articles that establish a legal definition of milk, classifying it in natural milk, reconstituted and recombined.</p> <p>Additionally, a dairy product is defined, according to the concept in the Codex standard and World Health Organization (WHO) and the United Nations Organization for Food and Agriculture (FAO). The milk is classified into three categories- Natural milk, Reconstituted milk and Recombined milk.</p> <p>The bill requires that, the milk must be milked in Chile. In case that mix of milks from different countries is sold, the countries of origin must be indicated on the label or front label, indicating in the back of the container or bottle the approximate percentage corresponding to each country.</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
4	G/TBT/N/EU/597	European Union	03/09/2018	Mepanipyrim (pesticide active substance)	<p>This draft regulation provides that the approval of the active substance Mepanipyrim is renewed. Existing authorised plant protection products containing Mepanipyrim will be amended or withdrawn from the market.</p> <p>However, this action attaches certain necessary conditions and restrictions to be followed by the business operators dealing with the substance. In particular, only the use in greenhouses can be approved.</p> <p>The restriction of approval is based on the first evaluation of the substance for use as a pesticide active substance in the EU.</p> <p>The EU agency informs that, this regulation only concerns the placing on the market of this substance and does not affect the Maximum Residue Levels (MRLs) for residues of the concerned pesticide.</p>
5	G/TBT/N/KEN/722	Kenya	03/09/2018	All imported products covered under Verification of Conformity to Kenya Standards of Imports Order, 2018	<p>This standard lays down the process to be followed for inspection of imported goods. The standard shall apply to all goods imported into</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>Kenya</p> <p>As per this standard, person-importing goods into Kenya shall ensure that the goods meet Kenya Standards or Approved Specifications. The Kenya Bureau of Standards (KEBS) shall appoint an inspection body or bodies in the country of origin of goods to undertake verification of conformity to Kenya Standards or Approved Specifications. If the KEBS deems it necessary, the goods shall be re-inspected at the Port of Entry.</p> <p>The Kenya Bureau of Standards (KEBS) shall issue a Certificate of Conformity in respect of goods that conform to the Kenya Standards or Approved Specifications and a non-conformity report in respect of goods which do not. The unapproved or rejected goods shall not be permitted into Kenya and shall be rejected and destroyed at the expense of the importer.</p> <p>Any goods which are subject to this standard and which arrive at the Port of Entry without a Certificate of Conformity from countries where appointed inspection body or bodies are not</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>present, shall be subjected to verification of Conformity to Kenya Standards or Approved Specifications to determine quality at the expense of the importer. In such cases, the KEBS may with the approval of the Cabinet Secretary, carry out destination inspection on goods arriving without a Certificate of conformity.</p> <p>Goods subjected to destination inspection (goods arriving without a Certificate of conformity) shall be subjected to inspection at the Port of Entry upon payment by the importer of an inspection fee of twenty per centum of the approved customs value.</p> <p>Further, this standard contains the documents required for the goods that are exempted from the pre-export verification of conformity (PVOC) requirements.</p>
6	G/TBT/N/KEN/723	Kenya	03/09/2018	All imported goods	This public notice covers the process to be followed to acquire Interim Import Standardization Mark (ISM) for inspection of imported goods.

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>KEBS has, in consultation with stakeholders, issued an interim ISM bearing Unique Consignment Reference (UCR) number as an interim measure to build confidence to consumers on imported products with an aim to safeguard their health, safety and the environment as well facilitate trade by enabling placement of the goods in the market.</p> <p>KEBS will issue the interim ISM on receipt of an application form (available on KEBS website) accompanied by copies of the Certificate of Conformity (CoC). Upon receipt, KEBS will issue the new ISM logo with the Unique Consignment Reference (UCR) number for the consignment.</p>
7	G/TBT/N/USA/1227/Add.2	United States of America	03/09/2018	<i>Emergency alert system</i>	<p>USA is adopting the Wireless Emergency Alert (WEA) rules. These rules aims to improve WEA, leveraging advancements in technology to improve WEA's multimedia, multilingual and geo-targeting capabilities, as well as lessons learned from alert originators' experience since WEA was initially deployed.</p> <p>By this action, the Federal Communications Commission (FCC) aims to improve the accuracy with which Participating commercial mobile service (CMS) Providers transmit Alert Messages</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					to the specified target area. This document also adopts rules to preserve Alert Messages on mobile devices, inform consumers about WEA capabilities at the point of sale, define participation in WEA, and extend the compliance deadline for Spanish language alerting. Through this action, the Commission hopes to empower state and local alert originators to utilize WEA during emergencies.
8	G/TBT/N/USA/1392/Add.1	United States of America	03/09/2018	<i>Chemical substances</i>	EPA is promulgating significant new use rules (SNURs) for 29 chemical substances which were the subject of premanufacture notices (PMNs).
9	G/TBT/N/USA/1393/Add.1	United States of America	03/09/2018	<i>Chemical substances</i>	The chemical substances are subject to Orders issued by EPA pursuant to section 5(e) of TSCA. This action requires persons who intend to manufacture (defined by statute to include import) or process any of these 29 chemical substances for an activity that is designated as a significant new use by this rule to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the intended use within the applicable review period. Persons may not commence manufacture or processing for the significant new use until EPA has conducted a review of the notice, made an appropriate determination on the notice, and has taken such actions as are required with that

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					determination.
10	G/TBT/N/USA/1394/Add.1	United States of America	03/09/2018	<i>Motor vehicles</i>	<p>The National Highway Traffic Safety Administration (NHTSA) and the Environmental Protection Agency (EPA) are proposing the "Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021- 2026 Passenger Cars and Light Trucks" (SAFE Vehicles Rule). The SAFE Vehicles Rule, if finalized, would amend certain existing Corporate Average Fuel Economy (CAFE) and tailpipe carbon dioxide emissions standards for passenger cars and light trucks and establish new standards, all covering model years 2021 through 2026. More specifically, NHTSA is proposing new CAFE standards for model years 2022 through 2026 and amending its 2021 model year CAFE standards because they are no longer maximum feasible standards, and EPA is proposing to amend its carbon dioxide emissions standards for model years 2021 through 2025 because they are no longer appropriate and reasonable in addition to establishing new standards for model year 2026. The preferred alternative is to retain the model year 2020 standards (specifically, the footprint target curves for passenger cars and light trucks) for both programs through model year 2026.</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
11	G/TBT/N/BHR/546	Bahrain, Kingdom of	04/09/2018	Ethylene polymers & Polypropylene polymers for the conveyance or packing of goods, not designed for prolonged use. This includes degradable, biodegradable and oxo degradable single-use plastic products. ICS codes: 83.140.99; HS codes: 392321, other codes may also apply to the proposed measure.	The Ministry of Industry, Commerce & Tourism with Supreme Council for Environment are in process to establish a National Technical Regulation (TR) to phase out import, sale or distribution of non-degradable plastic products. The proposed TR sets all the requirements in terms of specifications, licenses, labeling scheme, economic operators obligations, and other requirements for the products subject to TR.
12	G/TBT/N/BRA/461/Rev.1/Add.3	Brazil	04/09/2018	<i>Systems and equipment for water heating using solar energy (HS 8419)</i>	The Brazilian authority is updating the conformity assessment procedures (CAP) for water heating solar equipments. As per the CAP, the supplier has to submit a request first to the INMETRO authorities. The INMETRO authorities will examine the application and may proceed for testing. Testing can be done as per the procedures laid down by the INMETRO authorities. The Certificate of Conformity is valid for three (3) years and after the granting of the Certificate of Conformity, INMETRO will undertake in audits, in every 18 (eighteen) months, to verify if the conditions that gave rise to the Certification are still being met.
13	G/TBT/N/BRA/826/Add.2	Brazil	04/09/2018	Organic Production	Brazil has issued technical regulation concerning organic production systems as well as the lists of substances and practices permitted for use in

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					organic production.
14	G/TBT/N/CRI/180	Costa Rica	04/09/2018	Dry onion	This technical regulation aims to define the characteristics of quality, packaging and labeling of national or imported dried onion, which is intended for human consumption in Chile. Likewise, it applies to the dried onion that is sold in the national market, both pre- packaged and in bulk, regardless of whether it is produced domestically or imported.
15	G/TBT/N/ECU/263/A dd.2	Ecuador	04/09/2018	853710 - - For a voltage not exceeding 1,000 V; 853890 - - Other;	<p>The notified Technical Regulation establishes the requirements to be met by programmable controllers and related equipment, with a view to preventing risks to human life and safety and the environment, and practices likely to mislead users.</p> <p>It applies to domestically manufactured and imported programmable controllers, expansion modules and touch panels marketed in Ecuador.</p> <p>The notified draft Technical Regulation covers the purpose, scope, definitions, product requirements, labelling requirements, sampling, conformity assessment tests, reference documents, conformity assessment procedure, monitoring and inspection authority, penalty regime, liability of conformity assessment bodies and review and</p>

					updating.
16	G/TBT/N/ECU/47/Ad d.6	Ecuador	04/09/2018	870790 - - Other; 8702 - Motor vehicles for the transport of ten or more persons, including the driver.; 8706 - Chassis fitted with engines, for the motor vehicles of headings 87.01 to 87.05.;	the Ecuadorian Technical Regulation lays down the requirements to be met by school passenger transportation vehicles, with a view to protecting human life and safety, the environment and property, and preventing deceptive practices likely to mislead manufacturers and users. It covers the scope; definitions; classification; requirements; conformity assessment tests; other aspects.
17	G/TBT/N/ECU/58/Ad d.6	Ecuador	04/09/2018	870210 - - With compression-ignition internal combustion piston engine (diesel or semi-diesel); 870790 - - Other; 8706 - Chassis fitted with engines, for the motor vehicles of headings 87.01 to 87.05.;	the draft Ecuadorian Technical Regulation establishes the requirements to be met by buses for mass urban passenger transport with a view to protecting human life and safety, the environment and property and preventing deceptive practices likely to mislead manufacturers and users of buses for urban transport. It is applicable to domestically produced or assembled or imported urban buses, marketed in Ecuador.
18	G/TBT/N/EGY/1/Add. 4	Egypt	04/09/2018	<i>Fruit Flavored Meassel Tobacco</i>	This addendum gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 2063 "essential requirements and descriptive criteria of Fruit Flavored Meassel Tobacco".

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>The Egyptian agency informs that, this standard has been partially modified in the following items:</p> <ol style="list-style-type: none"> 1- Pure glycerin must be added without exceeding forty fractions per (100 fractions) of tobacco. 2- Addition of New item- In Packaging and labeling texts on "List of Ingredients (tobacco-glycerin- honey- flavor additives)".
19	G/TBT/N/EGY/156/Ad d.2	Egypt	04/09/2018	<i>Audio, video and audiovisual equipment (ICS: 33.160.99)</i>	<p>This addendum concerns the draft of Egyptian standard "energy efficiency for television". As per the notification, this standard is identical with European Directive (EU) No. 1062/2010. The standard mandates the following:</p> <ul style="list-style-type: none"> • Each television is supplied with a printed label in the format and containing information as set out in this standard • Any advertisement for a specific television model contains the energy efficiency class, if the advertisement discloses energy-related or price information • Any technical promotional material concerning a specific television model, which describes its specific technical parameters, includes the energy efficiency class of that model

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					Televisions have to comply with the energy efficiency class as determined on the basis of its Energy Efficiency Index (EEI) i.e. Class A+++ (most efficient) to Class G (least efficient). It has also prescribed the method of calculating energy efficiency index.
21	G/TBT/N/EGY/173/Ad d.1	Egypt	04/09/2018	<i>(ICS: 97.080) Cleaning appliances (Including vacuum cleaners, floor-cleaning machines, floor polishers, steam cleaners, pressure cleaners, hand operated cleaners, etc.)</i>	This addendum gives the producers and importers a six-month transitional period to abide by the Egyptian Standard ES 8057 "Energy efficiency of household electrical Appliances Methods for measuring and calculating Energy Efficiency of vacuum cleaners". The standard aims to rationalize electrical energy consumption and improve environmental conditions by reducing emissions which are harmful to the environment caused by the increasing use of energy.
22	G/TBT/N/EGY/178/Ad d.1	Egypt	04/09/2018	<i>ICS 97.030 (Domestic electrical appliances in general)</i>	This addendum gives the producers and importers a six-month transitional period to abide by the following Egyptian Standards: <ul style="list-style-type: none"> • ES 6000-1 "Household refrigerating appliances - Characteristics and test methods - Part 1: General requirements" • ES 6000-2 "Household refrigerating appliances - Characteristics and test methods - Part 2: Performance requirements" • ES 6000-3 "household refrigerating

					the mandatory Federal regulatory program and the voluntary ENERGY STAR program.
150	G/TBT/N/USA/943/A dd.1	United States of America	24/09/2018	<i>Airplane fuel tanks</i>	This rule removes the requirement for manufacturers to provide triple-redundant fault tolerance in lightning protection. It removes regulatory inconsistency by establishing a single standard for lightning protection of both fuel tank structure and fuel tank systems. It establishes a performance-based standard that the design and installation of fuel systems prevent catastrophic fuel vapor ignition caused by lightning and its effects. This performance-based standard allows applicants to choose how to provide the required level of safety. This action requires airworthiness limitations to preclude the degradation of design features that prevent catastrophic fuel vapor ignition caused by lightning. Its intended effects are to align airworthiness standards with industry's and the (Federal Aviation Administration) FAA's understanding of lightning, and to address issues of inconsistency and impracticality that applicants experienced with previous lightning protection regulations.

					<p>in natural environments.</p> <p>The standard establishes the specifications of security, information, operation, facilities and equipment, as well as protection and respect for natural resources and cultural heritage that are required in the development of the activity carried out by tour operators of adventure tourism / nature, that in the future they will be called (OSTAN).</p>
176	G/TBT/N/PRY/106	Paraguay	27/09/2018	Valve for Cylinder Storage of Vehicular Natural Gas (NGV)	<p>The present MERCOSUR Technical Regulation establishes the safety requirements and tests that must be carried out for the manufacture of the cylinder valve, as one of the components for the installation of the system for vehicular natural gas (NGV) used on board motor vehicles, to be applied by any supply chain of the product in the territory of the MERCOSUR States Parties and extrazone imports.</p>
177	G/TBT/N/CAN/513/A dd.2	Canada	28/09/2018	<i>Tobacco products (ICS: 65.160) ; Vaping products ;</i>	<p>Canada has proposed to amend the Tobacco Act to regulate vaping products as a class of products separate from tobacco products. Health Canada is developing regulations to allow for certain statements to be used in the promotion of vaping products that compare the health effects of vaping to smoking. The proposed regulations would (1) refer to a list of comparative health effect</p>

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					statements that are incorporated by reference in the regulations and (2) prescribe conditions for their use in commercial promotions, including on packaging. The act contains the list of substances, additives, colouring agents permitted for used and well as the prohibited substances in tobacco and vaping products.
178	G/TBT/N/USA/1045/Add.1/Corr.2	United States of America	28/09/2018	<i>Ceiling fans</i>	In the previously issued notification, the US Commission proposed amendments to the Energy Labeling Rule to create requirements related to a new label database on the Department of Energy's (DOE's) Website, redesign ceiling fan labels, improve and update the comparability ranges for refrigerator labels, revise central air conditioner labels in response to new DOE enforcement requirements, improve water heater labels, and update current plumbing disclosures.
179	G/TBT/N/USA/1057/R ev.1/Add.2	United States of America	28/09/2018	<i>Toxic Free Kids</i>	The Oregon Administrative Rules (OAR) reviews Chemicals of High Concern to Children (CHCC) every three years. Specifically, Oregon Revised Statutes (ORS 431A.255) directs the Authority to consider adding or removing High Priority Chemicals of Concern for Children's Health (HPCCCH) that are added or removed from Washington State Department of Ecology's Reporting List of Chemicals of High Concern to Children (CHCC). Changes to Ecology's CHCC list

Sl. No.	Notification Number	Members	Date	Products	Notification Details
					<p>were made through Washington Administrative Code rulemaking and took effect on October 30, 2017. Therefore, the Authority is adding (to OAR 333-016-2020) five of the 20 chemicals that were added to Ecology's list, and remove the three chemicals that Ecology removed from their list.</p>
180	G/TBT/N/USA/1326/Add.1	United States of America	28/09/2018	<i>Recycled Oil</i>	<p>This rule concerns specifying test procedures and labeling standards for recycled oil ("Recycled Oil Rule" or "Rule").</p> <p>The rule allows manufacturers to represent that processed used engine oil is substantially equivalent to new oil as long as they substantiate such claims using American Petroleum Institute (API) licensing and certification system. This rule does not explicitly state that their engine is substantially equivalent to new oil, nor does it mandate any specific qualifiers or disclosures.</p>
181	G/TBT/N/USA/1386/Add.2	United States of America	28/09/2018	<i>Chemical substances</i>	<p>EPA is withdrawing significant new use rules (SNURs) promulgated under the Toxic Substances Control Act (TSCA) for 145 chemical substances, which were the subjects of premanufacture notices (PMNs). EPA published these SNURs using direct final rulemaking procedures, which requires EPA to take certain actions if an adverse comment is received. EPA received adverse comments</p>

					<p>regarding the SNURs identified in this document. Therefore, the Agency is withdrawing the direct final rule SNURs identified in this document, as required under the direct final rulemaking procedures.</p>
182	G/TBT/N/USA/1394/Add.2	United States of America	28/09/2018	<i>Motor vehicles</i>	<p>The National Highway Traffic Safety Administration (NHTSA) and the Environmental Protection Agency (EPA) are proposing the "Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021- 2026 Passenger Cars and Light Trucks" (SAFE Vehicles Rule). The SAFE Vehicles Rule, if finalized, would amend certain existing Corporate Average Fuel Economy (CAFE) and tailpipe carbon dioxide emissions standards for passenger cars and light trucks and establish new standards, all covering model years 2021 through 2026. More specifically, NHTSA is proposing new CAFE standards for model years 2022 through 2026 and amending its 2021 model year CAFE standards because they are no longer maximum feasible standards, and EPA is proposing to amend its carbon dioxide emissions standards for model years 2021 through 2025 because they are no</p>
