TBT Notifications

Monthly Report

November 2017

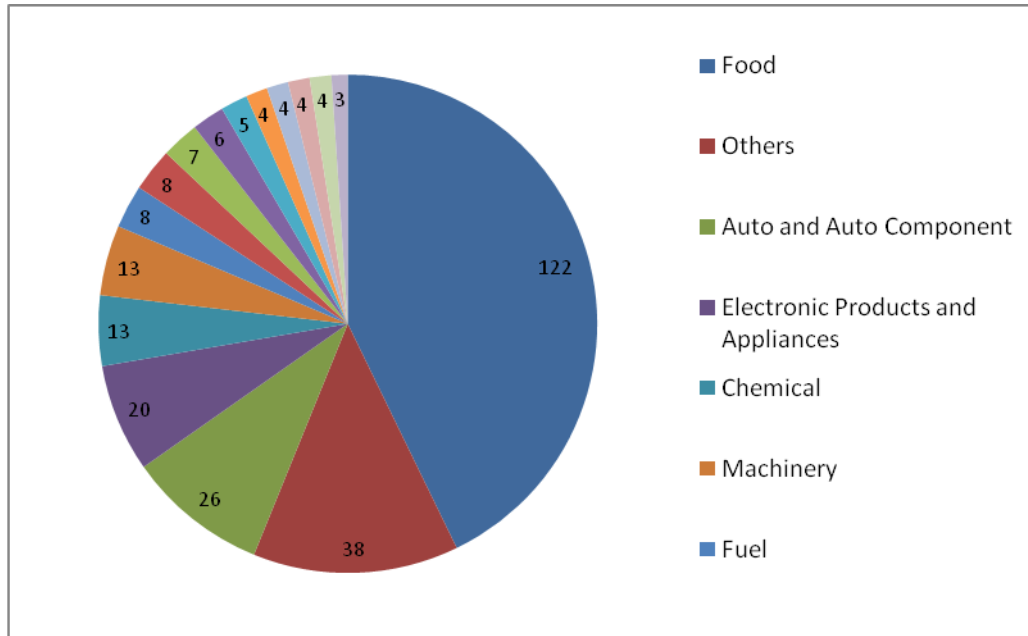

TBT MONTHLY REPORT (NOVEMBER 2017): AT A GLANCE

Details Pertaining to TBT Notifications Issued By WTO Member Countries

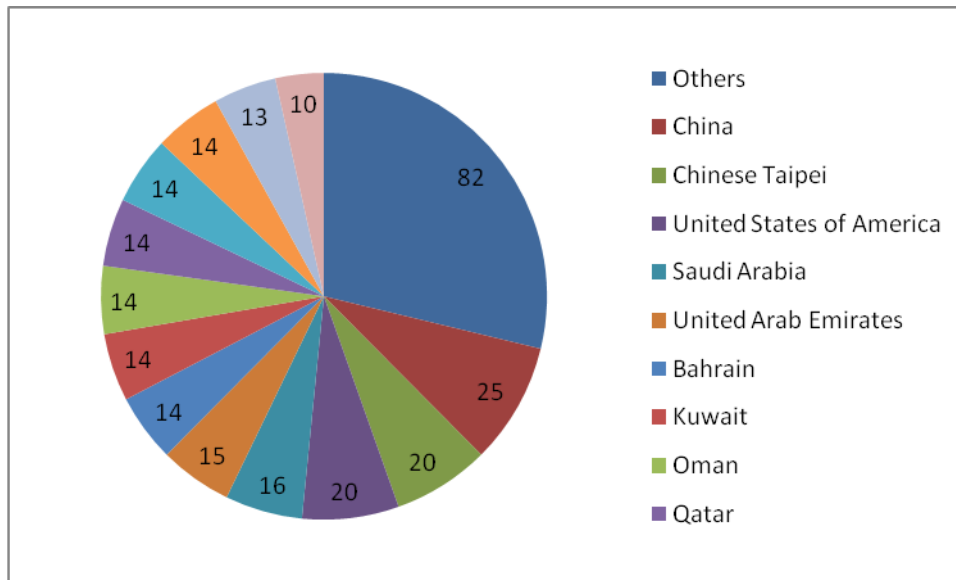

The total numbers of TBT Notifications issued by the various WTO-Member Countries in November 2017 were 288. Out of which, India has issued three notifications. Hence, 285 notifications were studied in November 2017. Out of 285 notifications, 42 notifications were the addendum of draft regulations notified earlier in the WTO.

Details Pertaining to TBT Notifications Relevant To India

Product-wise Information: Out of the total 285 Notifications, 122 related to food, 26 related to auto and auto component, 20 were related to electronic products and appliances, 13 related to chemical products, 13 related to machinery, 8 related to fuel, 8 related to pharmaceutical products, 7 related to toys, 6 related to medical device, 5 related to textile products, 4 related to communication equipment, 4 related to construction, 4 related to cosmetics, 4 related to iron & steel, 3 related to pesticide and 38 notifications were related to other products.

Country-wise Information: Out of the total 285 notifications, China issued 25 notifications, followed by Chinese Taipei, United States of America, Saudi Arabia, United Arab Emirates, Bahrain, Kuwait, Oman, Qatar, Uganda, Yemen, Israel and Mexico with 20, 20, 16, 15, 14, 14, 14, 14, 14, 14, 13 and 10 Notifications, respectively. The remaining 82 Notifications were from other WTO Member countries.

TBT Notifications Relevant to India

This section covers details of notifications which are relevant to India and where a letter has forwarded to all relevant and interested stakeholders seeking their comments on the notification. Stakeholders include individual exporters, organizations, associations and government departments representing the product mentioned in these notifications.

In November 2017, there were 285 notifications issued by WTO member countries which were relevant to India. Letters have already been sent to their respective stakeholders; however, the responses from the stakeholders are awaited. We are regularly following up on these notifications.

Out of 285 notifications, preliminary analysis suggests that in case of 48 notifications India may submit a response seeking either clarifications or seeking market access from the notifying members. These 48 notifications are highlighted yellow in the below table.

Please find below the details of these notifications:

This standard establishes the requirements to be met by concrete blocks for use in construction. It classifies the blocks by weight, in accordance with density of the concrete, and defines three types of blocks: normal weight, medium weight and lightweight. Regarding the test methods for the concrete blocks, specifications have been established for size, compression-resistance, absorption, block weight (density), moisture content, linear drying shrinkage and capillarity. The standard applies to concrete blocks made from cement, water and mineral aggregates, with or without the inclusion of other materials. The blocks, for use in construction, may have smooth or textured sides and may or may not have been waterproofed.</p>

103	G/TBT/N/CAN/534	06/11/2017	Canada	Drug products containing controlled substances (ICS 11.120)	This has reference to the TBT notification G/TBT/N/CAN/534 dated 6th November 2017 issued by Health Canada on drug products containing controlled substances. It is applicable on medicinal products that can affect mental processes. This regulatory proposal aims to provide a long-term solution to address three problematic areas that are currently only addressed using temporary measures. The proposed amendment states the following:

Sl. No.	Notification Number	Date	Members	Products	Notification Details
					<p>i. The destruction of unserviceable stock containing certain controlled substances by pharmacists, practitioners and persons in charge of hospitals. Here, the proposed amendments would update the Benzodiazepines and Other Targeted Substances (BOTSR) destruction provisions and add equivalent provisions to the NCR and the Food and Drug Regulations (FDR-G) to ensure consistency across the regulations.</p> <p>ii. Add new provisions to BOTSR, the NCR and FDR-G to authorize individuals to return prescription drugs containing controlled substance to a pharmacy for destruction in order to reduce problematic uses and the diversion of unserviceable drugs.</p> <p>iii. Update the provisions contained within BOTSR, NCR and FDR-G to remove the need for exemption for the individuals entering or leaving Canada with controlled substances for personal medical use.</p>
